What You Need

SAUNA BASE

Ensure the base of your sauna is level with a slight slope at the back for drainage. A solid base for your sauna is recommended and can be made from the following:

Concrete Pad **Wood Deck** **Patio Stone** **Crushed Stones**

ELECTRICAL

Electrician - Final Electrical hookups must be completed by a certified electrician to ensure proper installation and compliance with local codes. This is essential for safety, performance, and warranty validation.

Requires 240v and 30-50 amp depending on the heater.

BUILDING LUXURY

CANADIAN Timber Collection

AVALON SAUNA

Canadian Timber Collection • Specs & Dimensions

Crafted from Eastern White Cedar the Avalon features a true three tier sauna experience. This seat configuration along with the 2 3/4 inch double groove log walls deliver exceptional durability and heat effeciency.

Product Details & Customizations

100% Canadian Made
Handcrafted in Canada with Canadian wood by local expert artisans.

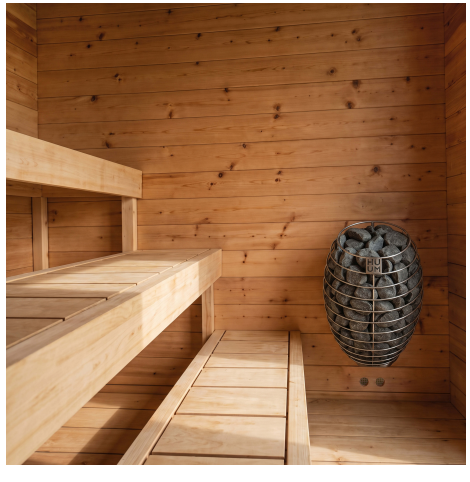

Eastern White Cedar
Premium Grade A Eastern White Cedar single stave bevels ensure consistent quality and naturally weather resistant.

Roof
Black Metal roof with overhang gives protection from the elements.

Bench Configuration
3 Tier bench layout is perfect for natural heat stratification.

Walls
2 3/4 inch double groove Eastern White Cedar log walls for durability and strength.

Made in Canada
